

VIJAY DHARMENDRA YADAV

☎ 9076018276 🏠 Mumbai 🌐 github.com/vijayyadav2212 💼 linkedin.com/in/vijay0411 ✉ yvijay2212@gmail.com

Seeking an opportunity to leverage my leadership abilities, strong technical foundation, and innovative problem-solving skills in a dynamic organization to develop impactful solutions and contribute to long-term organizational growth.

EXPERIENCE

Flutter Development Intern | *Getfly Technologies* - [link](#)

April 2025 - July 2025

- Developed responsive UI screens in Flutter, ensuring consistent user experience across devices and screen sizes.
- Implemented navigation using GoRouter, enhancing app structure and simplifying route management.
- Managed app state using Riverpod provider and tested backend API integrations with Postman to ensure reliable and seamless data flow.

PROJECTS

Connecting Future–Alumni-Student Networking Platform

August 2025 - Present

- Led the development of “Connecting Future,” a student-alumni networking platform with features like profile creation, messaging, event management, and mentorship matching.
- Ensured data security through robust authentication mechanisms and maintained application reliability through thorough testing and debugging.

Sign Language Detection Model

March 2025

- Built a real-time Sign Language Detection model using CNN architecture and Python libraries such as TensorFlow and OpenCV, enabling accurate gesture classification from live video feed.
- Annotated and mapped custom gesture images using LabelImg, creating a structured dataset for efficient training and validation of the model.
- Achieved an accuracy of 89% by optimizing the CNN model with multiple convolutional and pooling layers, and integrated OpenCV for seamless camera-based hand sign recognition.

AI based interview model

December 2024

- Designed and implemented an AI-driven platform that automates interview processes, including question generation, real-time interaction, and candidate evaluation.
- Streamlined user onboarding and response analysis by integrating authentication and AI services through custom APIs.
- Enhanced the recruitment experience by enabling intelligent feedback, automated scoring, and a responsive interview simulation interface.

SKILLS

Programming Languages & Web Technologies: Python, Java, SQL, TypeScript, Dart, React, Nextjs, Nodejs, Expressjs.

Machine Learning & Data Science: Classification, Regression, Clustering, Feature Engineering, Cross-Validation.

Tools, Platforms & Databases: MySQL, PostgreSQL, Flutter, Visual Studio Code, Android Studio, Google Colab.

Core CSE Fundamentals: Object-Oriented Programming (OOPs), Database Management Systems (DBMS).

EDUCATION

Vasantdada Patil Pratishthan’s College of Engineering and Visual Arts

B.E Information Technology

Expected June 2026

Current CGPA: 7.22

CERTIFICATIONS

SC-900: Microsoft Security, Compliance, and Identity Fundamentals | *Compliance, IAM* - [link](#)

26th June 2025

Generative AI Certification by EduBridge | *Python, OpenAI, Prompting* - [link](#)

25th February 2025

Introduction to Career Skills in Data Analytics by Microsoft | *Data Analytics* - [link](#)

15th February 2025

Building Modern Web Applications with MERN Stack | *MERN Stack* - [link](#)

29th January 2025

Data Analytics Program by Godrej Infotech(Godrej and Boyce) | *Power BI, SQL, DBMS* - [link](#)

22nd October 2024

Python 3.4.3 test certificate by IIT Bombay | *Python and its libraries* - [link](#)

2nd April 2024

ACHIEVEMENTS & ROLES OF RESPONSIBILITY

Event Head - Training & placement department (VPPCOE&VA)

November 2024 - Present

Technical Head - Quasar 4.0: Intercollegiate national level hackathon (VPPCOE&VA)

January 2026

First Prize - Kaun Banega Coder (Departmental Technical Competition) (VPPCOE&VA)

October 2025

Second Runner Up - SIH Internal Hackathon (VPPCOE&VA) - [link](#)

September 2025
